

Hospitality

Soothing Refuge, Razor-sharp Efficiency

Reassuringly Available

Show your customer they are being cared for, simply by being there. Use of two-way radio communications puts you in touch with staff who are out of sight, so the customer is never left unaided.

'Look available' too, by wearing the discreet and nonthreatening **Cellular Style Earpiece with Clip Microphone**. This handsfree set allows you to work with both hands and is effortless, thanks to the easy-to-reach PTT button that can be clipped to the collar. For long shifts, switch to the comfortable **Ultra-Light Headset with Boom Microphone**. It also enables hotel guests to easily identify the staff.

For the backroom staff, such as those working in relatively noisy boiler rooms and general maintenance work, Motorola's **Medium Dual-Muff Headsets with Boom Microphone** will help protect their ears as well as free up their hands to continue their work uninterrupted.

Motorola's range of economical line accessories, **Mag One**, are simple to operate and ideal for the indoor demands of the hospitality industry. They are also affordable, especially for deployment amongst a large fleet of staff.

There is little doubt that the hospitality business is one of the most demanding service industries.

From soothing the weary traveller to arranging large scale banquets, these activities place great demands on coordination and communication. Motorola two-way radios and accessories will greatly ease your coordination challenges, at the same time bring you to a 'proactive' level of service, to gain that extra competitive edge. Motorola takes you beyond 'service with a smile', to 'service delight'. Here is how:

Enhance Your Radio's Capabilities

A comprehensive range of accessories is available so that the radios can be customised to suit your needs. Adding the proper headsets, microphones, batteries, chargers or carry cases can enhance the productivity of the people who use two-way radios. Motorola accessories are built with the highest quality standards and are specially engineered to assure maximum performance of your radio, no matter what profession you're in.

2-Wire Surveillance Kit with Clear Acoustic Earpiece

Ultra Light Breeze Headset with in-line PTT

Medium Dual-Muff Headset with Boom Microphone

Ear Receiver with in-line MIC/PTT/VOX Switch

Earset with Boom Microphone & PTT/VOX Switch

Ultra Light Headset with Boom Microphone & in-line PTT/VOX Switch

Multi-Unit Charger

Indoors or Out

In a large resort, ensure clarity of communication with Motorola's extensive range of **UHF and VHF Antenna**, for maximum coverage. **Repeaters** can also be installed strategically throughout the grounds, to boost coverage.

Always On

With the 24-hour shift work operations that is common in the hospitality industry, Motorola's **Multi-Unit Charger** can rejuvenate up to six batteries at the same time, making it so easy and efficient. Batteries can be charged either with or without the radios, ensuring nonstop and effective communications will be humming day and night. Coloured **LED indicators** help identify which batteries are ready for use, and which ones are still charging.
