

Private Security & Events Management

Secure, Efficient and Professional

Round the Clock Operations

With a large fleet of personnel patrolling an area in shifts, uptime of your communication system can be maintained easily with a Motorola **Multi-unit Charger**. Precious time and desk space can be saved by charging up to six batteries simultaneously. A fully-charged battery will easily take you through a normal 8 hour or extended 12-hour shift.

Lightweight, Discreet and Hands-free

Using a **Cellular Style Earpiece with Clip Microphone** reduces the need to carry the radio in your hands all day. Lightweight and comfortable for all-day wear, it also enhances your ability to react to emergency situations, such as over powering an intruder or breaking up a fight. For an extra discreet and better reception, fit in a **clear acoustic tube**.

The earpiece also transmits sound directly into the ear, ensuring clear reception of messages even at a noisy venue. This way, communication becomes quick and convenient; suitable for activities such as event management, traffic marshalling, site inspection and many more. If greater protection from ambient noise is needed, an alternative range of **Lightweight Adjustable Headsets** is available and offers some level noise protection.

Ensuring Clarity Across the Area

For larger complexes including underground carparks and office towers, strategically-placed **Repeaters** will help ensure clarity of transmission and extend the range of radio fleets, also allowing separate coverage areas to be linked together.

The security / events management professions are exciting, high-involvement jobs. And it nearly always occupies people, in a variety of extreme situations. Not only must you be alert all day, but also ready to respond quickly and clearly. Whether you are a security guard looking after a shopping centre or an usher at a noisy rock concert, Motorola's radios and accessories will help you maintain round-the-clock readiness and also convey an air of professionalism and confidence.

Enhance Your Radio's Capabilities

A comprehensive range of accessories is available so that the radios can be customised to suit your needs. Adding the proper headsets, microphones, batteries, chargers or carry cases can enhance the productivity of the people who use two-way radios. Motorola accessories are built with the highest quality standards and are specially engineered to assure maximum performance of your radio, no matter what profession you're in.

Multi-Unit Charger

D-Hook Earset with Flexible Microphone Tube

Flexible Ear Receiver

Behind-the-Head Ultra-lite Headset (in-line PTT)

Earbud with in-line MIC/PTT/VOX Switch

Mag One Batteries

Mag One - Your Economical Choice

Lower your cost of investment with Motorola's range of economically-priced **Mag One Batteries and Audio Accessories**, without compromising quality of work. The main advantage is that all Mag One accessories are designed to work **seamlessly** with Motorola's radios.

Mag One Audio Accessories are **cost effective and easy to use**, yet endowed with users' desired feature like PTT/VOX toggle switch. This provides the user flexibility to perform total handsfree without even to press-to-talk (PTT) when used with a radio with internal VOX (Voice activated transmission) built in. Lightweight and comfortable, they are suitable for indoor use. **Mag One Batteries** offer adequate 'talk-time' that are ideal for private security operations and are also suitable for indoor to moderate environments.
